TB#: **TB02-011**

InfoWorkSpace Technical Services (800) 760-3205

TB Title:

**Incorrect verbiage in the Server Installation Guides**

Platform:

**All**

Change Request(s)

**6259**

Category(s)

**Documentation**

Version:

**InfoWorkSpace 2.5.1**

**Documentation Affected:**

2.5.1 Solaris Server Installation Guide – Part Number 750-00489-001 Rev. A

Windows NT/Windows 2000 2.5.1 Server Installation Guide – Part Number 750-00488-001 Rev. A

**Synopsis:**

There is incorrect verbiage in both guides.

**Solution:**

**Solaris** - page 76, step 8 second sentence states "Once the system reboots your 2.5.1 Service Pack Installation is complete and ready for use." This statement should say "Once the system reboots, continue with the next two sections."

**Windows** - page 141, step 13, second sentence states "After you have concluded this process, your 2.5.1 Service Pack Installation should be functional and ready for use." This statement should say "After you have concluded this process, continue with the next section in order for it to work properly."
