TB Title:

PlaceWare Add-In for PowerPoint Errors with Microsoft® Office 2003

Platform:

IWS Window Clients

Version:

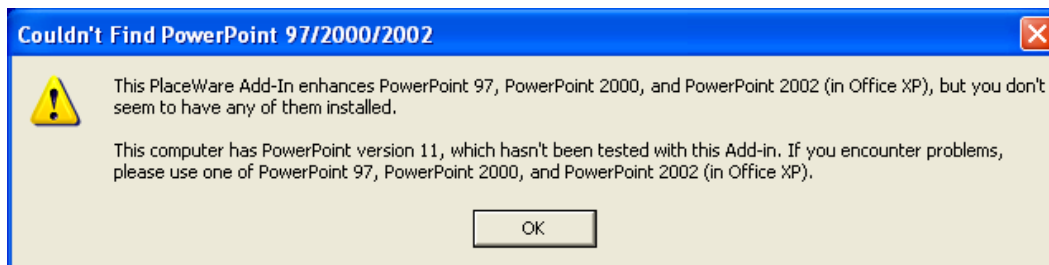

InfoWorkSpace 2.5.1.2

Category:

PlaceWare Plugins

Problem Description:

When installing the PlaceWare Add-In for PowerPoint Version 7 on Microsoft Windows® with Office 2003 an error will display:

Solution:

Click **OK** and continue with the installation.

Although the PlaceWare PowerPoint Add-In currently requires Microsoft PowerPoint 97, PowerPoint 2000, or PowerPoint 2002 (in Office XP) on Microsoft Windows, you will still be able to convert a 2003 .ppt file to .pwp and upload the slide set for use in the PlaceWare Conference Center.
